Linux Ubuntu Rocks

It can even run WinXP in Ubuntu

8 Dec 2007

Watch the video @ <http://www.youtube.com/watch?v=01OqyzEyV9M>

The new free Linux Ubuntu operating system has better visual effect and program than Windows Vista eventually.

Wikipedia

World biggest free online encyclopedia

7 Dec 2007

Wikipedia is a multilingual, web-based, free content encyclopedia project. The name Wikipedia is a portmanteau of the words wiki (a type of collaborative website) and encyclopedia. Wikipedia's articles provide links to guide the user to related pages with additional information.

Wikipedia is written collaboratively by volunteers from all around the world. Since its creation in 2001, Wikipedia has grown rapidly into one of the largest reference Web sites.

There are more than 75,000 active contributors working on some 8,700,000 articles in more than 250 languages. As of today, there are 2,079,823 articles in English; every day hundreds of thousands of visitors from around the world make tens of thousands of edits and create thousands of new articles to enhance the knowledge held by the Wikipedia encyclopedia.

World In Conflict

Best RTS game that could beat the rest

6 Dec 2007

World in Conflict presents a chillingly authentic Cold War scenario where the Berlin Wall never fell. Created by Cold War authority and best-selling author Larry Bond, the story begins in 1989 as the Soviets, fearing certain collapse, boldly advance into Europe. NATO responds in force only to be met on a second front — a full-fledged invasion of the American homeland.

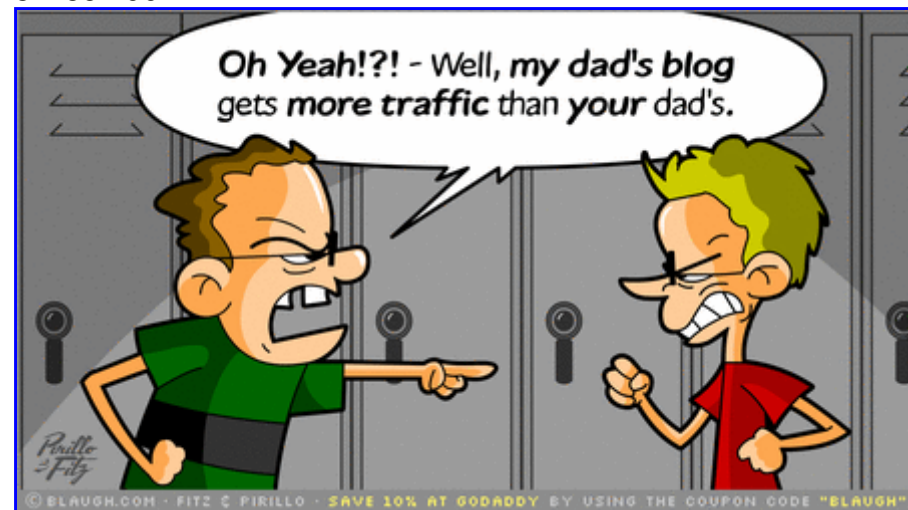

Players take on the role of field commander, leading the era's most powerful military machines in the campaign to retake America's cities and suburbs. The RTS gameplay features completely destructible 3D battlefields, aggressive team-based multiplayer action and a focus on fast, hard-hitting battles.

Very funny.

Consciousness In The Cell

Cell too has wisdom

4 Dec 2007

In this book, you will see the wise, planned and calculated functions performed with an incredible consciousness by the organelles in the cell, enzymes produced in the body, hormones and other molecules, which are unlikely to have been caused by these organic components themselves.

You will read examples of the wisdom and consciousness displayed in each and every one of the hundreds of trillions of cells making up the human body and, as always, witness that no beings, living or non-living, could have been the result of unconscious coincidences but are the work of the superior might, knowledge and artistry of Allah (The One God), the Lord of all the worlds.
