Its a DNA Virus

Wednesday, July 11, 2007, 12:00:36 AM

Scientists probing the details of viral infection have discovered an intriguing surprise: in mice, herpes viruses hijack their host cells' tools for fixing DNA damage and use those tools to enhance their own reproduction.

## Nuking Nuclear Waste

**Nuclear energy is simple but not the waste!**

*Tuesday, July 10, 2007, 12:00:01 AM*

Nuclear waste at the Hanford Site in Washington! Later this year, scientists at Oak Ridge National Laboratory in Tennessee hope to take a big step toward solving America's nuclear-waste woes. Pending clearance from the Department of Energy, they will demonstrate a new toxic-waste recycling process.

## [3D Crystal Puzzle](#)

**Look like crystals but its transparent plastics...**

*Sunday, July 08, 2007, 12:00:27 AM*

Crystal puzzle is the 3D jigsaw puzzle. By assembling the beautiful transparent interlock pieces, complete a fresh and juicy looking Apple, Swan, Pyramid and etc. It is very interesting, challenging to one's mind. Also you can enjoy to display them in your room as a beautiful object.

## [Red Yellow Green Stoplights](#)

**What nonsense is this!**

*Saturday, July 07, 2007, 4:00:06 AM*

Stoplights are red, yellow, and green, because traffic officials, early on copied the code from system railroad engineers devised for track systems controlling the trains.

## S.O.S - Live Earth - 070707

Answer the call, make a commitment and answer the pledge!

Saturday, July 07, 2007, 12:00:02 AM

Our previous decades commitment aren't enough to fight global warming!

Please visit : <http://www.liveearth.org> to make a call!

Check Video @ <http://www.youtube.com/watch?v=N0VE7ZwrhM8>

### **ANSWER THE CALL** MAKE YOUR COMMITMENT:

---

#### **I PLEDGE:**

1. To demand that my country join an international treaty within the next 2 years that cuts global warming pollution by 90% in developed countries and by more than half worldwide in time for the next generation to inherit a healthy earth;
2. To take personal action to help solve the climate crisis by reducing my own CO2 pollution as much as I can and offsetting the rest to become "carbon neutral";
3. To fight for a moratorium on the construction of any new generating facility that burns coal without the capacity to safely trap and store the CO2;
4. To work for a dramatic increase in the energy efficiency of my home, workplace, school, place of worship, and means of transportation;
5. To fight for laws and policies that expand the use of renewable energy sources and reduce dependence on oil and coal;
6. To plant new trees and to join with others in preserving and protecting forests; and,
7. To buy from businesses and support leaders who share my commitment to solving the climate crisis and building a sustainable, just, and prosperous world for the 21st century.
