## Eyezmaze

**Cute and maze**

November 23, 2007

An incentive little site offering beautiful mind bending abstract games. Growcube is the current favourite here. You may also find bundles of other cute flash games here! Anyway I'm not sure if most adult find it interesting, but good to make kids busy while you doing...

Visit @ <http://eyezmaze.com>

## Face Book

**Its not about putting faces on book**

November 22, 2007

Facebook is a social utility that connects people with friends and others who work, study and live around them. People use Facebook to keep up with friends, upload an unlimited number of photos, share links and videos, and learn more about the people they meet.

Personally, this social utility got a high ranking on the net by storm, sometime I notice there's too much of duplicate products, wonder when we going to meet the limits.

Anyway if you like it, join here @ <http://facebook.com>

## Business Blogging Blunder

## Eyclopedia Of Spices

**This is not spice girls**

November 20, 2007

I hope I don't sound like a broken record. But today's site is cooking-related once again. The fact is that once you decide to become a serious (or at least semi-serious) cook, you need to familiarize yourself to the world of spices. The idea is that you shouldn't be enslaved to recipes. You should feel free to tweak as necessary.

It's pretty cool! For instance, you take a spice that you see on the spice rack and learn what it does.

## Call Of Duty 4

**Modern warfare, no more world war 2**

November 19, 2007

Checkout the video @ [http://media.xbox360.ign.com/media/902/902590/vid\\_2189770.html](http://media.xbox360.ign.com/media/902/902590/vid_2189770.html)

They say war is hell. Infinity Ward's Call of Duty 4: Modern Warfare takes you to the very depths of Hades. The long-awaited COD4, IW's follow-up to the excellent Call of Duty 2, is a jarring, intense, and gripping take on war in the new millennia. The enemies are smarter, the weapons are deadlier, and the grenades all too plentiful. COD4 will shake loose your fillings and have you begging for more.

Infinity Ward was born out of the success of retelling some of the greatest battles in World War II. The company has become synonymous with the virtual beach at Normandy. So it was quite a gamble to break from the comfort zone of Nazi-occupied Europe and leap into present day. The gamble paid off. Ghost Recon, Rainbow Six, and every other military-based shooter has been put on notice. There is a new standard to judge this sub-genre and it is Call of Duty 4.

## **Brain Explorer**

*Complex neuron work together*

November 18, 2007

The Web continues to prove the optimum medium for conveying the complexities of the brain and its workings. BrainExplorer.org displays each component of our '3-pound universe,' as well as illustrating areas affected by specific diseases.
