The Newsletter

Google-Fu

I am the one...

August 25, 2007

<http://www.youtube.com/watch?v=Y9hZdoYDs8M>

It is actually defined as “the ability to quickly answer any given question using internet resources, such as a search engine”. It’s a Zen concept, if you will. The better and faster you become at finding the right answers quickly online, the higher your “Google-Fu rating”.

See till the end, when user ask about Vista Error to Chris....

RC Flying Plane

You are grounded

August 24, 2007

This is my first radio control plane, with a foam wingspan of 176cm, powered by two DC electric motor with PVClastic propeller. Operated at 72Mhz radio frequency with 400m radius range, capable of flying at attitude 500 feet. The flight banking is base on controlling the motor speed, I meant is that one of the motor need to slower than the other.

But sadly this plane is not so stable for straight flight due to no gyro instrument install and lack of safe open space near my home. Sadly, it didn't even succeed the maiden flight and now ended up hanging at my bedroom ceiling as a historical collection.

MP3 Gain

Fix and standardized volume...

August 23, 2007

Tired of reaching for your volume knob every time your mp3 player changes to a new song? MP3Gain analyzes and adjusts mp3 files so that they have the same volume.

MP3Gain does not just do peak normalization, as many normalizers do. Instead, it does some statistical analysis to determine how loud the file actually sounds to the human ear.

Also, the changes MP3Gain makes are completely lossless. There is no quality lost in the change because the program adjusts the mp3 file directly, without decoding and re-encoding.

Vowing Wedding Favors***The new wedding era...***

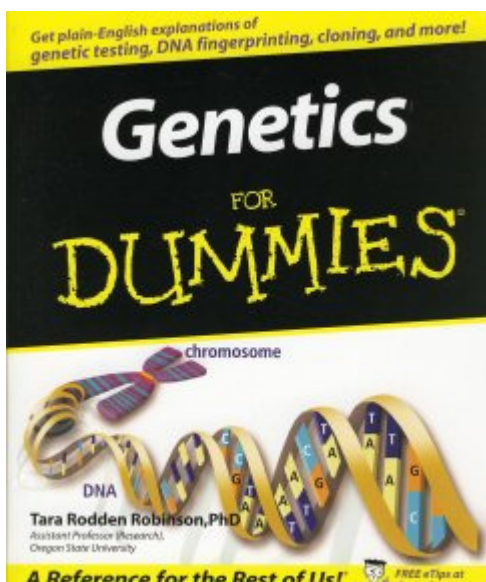

August 22, 2007

Will anyone do that!

Genetics For Dummies***This is not a crash dummies course!***

August 21, 2007

Want to know more about genetics? This non-intimidating guide gets you up to speed on all the fundamentals. From dominant and recessive inherited traits to the DNA double helix, you get clear explanations in easy to understand terms. Plus, you will see how people are applying genetic science to fight disease, develop new products, solve crimes and even clone cats.

This book is written by Tara Rodden Robinson, PhD, completed a postdoctoral fellowship in genetics at Auburn University and is currently an Assistant Professor (Research) in the Department of Fisheries and Wildlife at Oregon State University.

What I like about book for dummies? Call it the dummies way...

- 1.Its explanations in plain english.
- 2."Get in, Get out" information.
- 3.Icons and other navigational aids.
- 4.Tear out cheat sheet .
- 5.Top ten list.
- 6.A dash of humor and fun.

Get smart! @ <http://www.dummies.com>

Snopes

Myths or Facts

August 19, 2007

Sometime you might recieved mail subject like - "Drink cold water may cause cancer". Most people may just believe it is true but it is actually a myth or rumours.

As usually I will checkout these website call Snopes.com.

The definitive Internet reference source for urban legends, folklore, myths, rumors, and misinformation.
