Teachers - Ban The Internet!

Over Compulsive Disorder Syndrome...

August 04, 2007

British teachers have launched an all out war against technology, with calls this week to ban YouTube and Wi-Fi. Demanded an inquiry into the technology, pointing to a range of maladies which could be down to radio waves cooking the brains of pupils and teachers alike.

Scribus

Great open source desktop publisher

August 04, 2007

Scribus is an open-source program that brings award-winning professional page layout to most commonly use operating system like Linux, Unix, MacOS X, OS/2 and Microsoft Windows desktops with a combination of “press-ready” output and new approaches to page layout.

Underneath the modern and user friendly interface, Scribus supports professional publishing features, such as CMYK color, separations, ICC color management and versatile PDF creation.

Free Video Editor

AVCutty simply rocks and somemore free!

August 02, 2007

AVCutty is able to capture video material from a DV camera. It saves the videos in AVI files. It also simplifies the splitting of AVI files into the different scenes. It scans the AVI files and detects the scene changes either optically or per DV date stamp. Each scene can be saved into a new AVI file.

OR-Live

This is not a SCRUB TV-Series...

July 29, 2007

I like watching what happen on medical operation room where you can understand better on operation procedure from heart to knee replacement surgery. Plus also find out what the latest technology, example: Da Vinci Robot, Gamma Knife, which are available in today OT. So as to increase the chances of surviving, quick healing for the patients undergoing surgical procedure.

Most of the procedure will take about an hour including explaining, discussion, question and answer.It features live and on-demand Webcasts of breakthrough medical procedures from world renown medical centers and hospitals.

Available in real player format or media player and also podcast!
