FileHippo.com

March 29th, 2007 by Aidle

Have you ever wonder where to get latest great 100% freeware softwares? Filehippo.com is the answer, in fact it is one of my favourite download site for best quality software. They have a 100Mb connection and resuming support servers for download. Plus a well organize, easy to search with filtering feature and also keep history of previous version of programs you can easily revert back. The site also have RSS feeds, so you can always get updates on latest version of software quickly. Visit here: FileHippo.com

Download Accelerator Plus 8.5

March 27th, 2007 by Aidle

Speedbit.com has recently released a new version Download Accelerator Plus 8.5 with new and improved interface. Highly recommended by millions user worldwide due to its ability to increase your file download speed by 400%, resume broken link, scheduled task, virus scan by your antivirus after download. DAP come in two version, a **free** version with ad-support and **premium** version with richer set of features and no ads.

Visit the official site for download and details: <http://www.speedbit.com>

Ask A Ninja

March 26th, 2007 by Aidle

Ask A Ninja any question and he answer it in an interesting way. Lots of funny question being asked and I like this comedian talking ninja cause it make me laugh from starting till the end. You may find more samples at YouTube, Revve or Friendster. If you like to buy the whole collections of humourous video, please visit the official site: www.askaninja.com

SpeedBit Video Accelerator

March 25th, 2007 by Aidle

Tired of watching that “jerky” video from YouTube? Why not get a free SpeedBit Video Accelerator for YouTube. It will makes videos stream faster and play smoother by reducing buffering problems and video interruptions or “hiccups”. Download and see the different: <http://www.speedbit.com/Video Accelerator>

STALKER - Shadow Of Chernobyl

March 24th, 2007 by Aidle

At last, I finally brought a very long waited pc game that took the creator more than five years to complete. Not just a First Person Shooter but with new concept of gameplay. [\[Read More\]](#)
